

Assignment #1
9/9/26
Chris Grimm

Watch the Lab Assignment Exercise Video in Week 1 and complete the following exercises in VS Code:

CIS 228 Lab Assignment Exercise 1

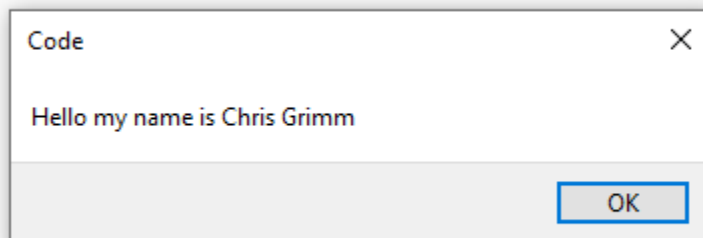

<https://www.youtube.com/watch?v=2u0K0Z3GsVk>

1. Create a base html file for use in the next steps

Welcome to CIS 228!

This is a paragrph

2. Copy the base html file into a new file called alert.html and add an alert box pop up using JavaScript. Output your name in the alert box.

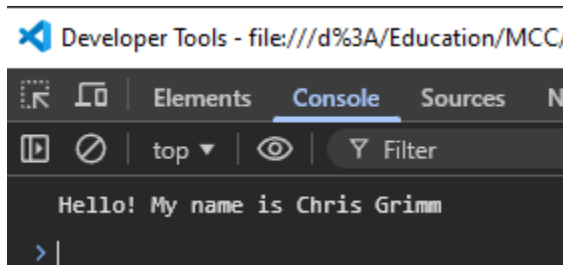

3. Copy the base html file and create some output using document.write() JavaScript code. Output your name as part of the generated content.

Welcome to CIS 228!

This is a paragrpah

Hello! My name is Chris Grimm

4. In the same file, output your name to the browser console using `console.log()`. Open with F12 or the inspect option in the integrated browser or the browser of your choice.

Take screenshots of all four steps and drop them here in this assignment as attachments.
